MODERN GBQ

Grace Building Quote

For Architects

Design with the budget in sight.

Modern GBQ gives architects early cost feedback, so design decisions and client expectations stay aligned from concept to tender.

Cost feedback at concept stage

Estimate while the design is still flexible, not after tenders come in.

Test options quickly

Compare sizes, layouts and finish levels and see the cost impact of each.

Realistic client conversations

Show clients what their brief really costs, backed by an independent method.

Fewer redesigns after tender

Reduce the rework caused by over-budget designs.

1. **Create your account**
2. **Enter the design parameters**
3. **Compare options with your client**

Powered by GEM, the Grace Estimation Method: developed by architect Sam Grace over 35 years in construction across Australia, the UAE and Egypt.

Bring cost into your design process
