MODERN GBQ

Grace Building Quote

For Building Material Suppliers

Put your products inside every quote.

Modern GBQ is where homeowners, builders and developers price their projects. Be there at the moment materials are chosen.

Reach buyers at decision time

Your products and prices appear where projects are being estimated, not after the decision is made.

Real projects, real enquiries

Connect with builders and homeowners who already have a budget and a plan.

One place for your pricing

Keep your catalogue and prices current and visible to the whole platform.

Grow without cold calling

Let projects across your region find you through their estimates.

1. **Register as a supplier**
2. **List your products and prices**
3. **Receive enquiries from live projects**

Powered by GEM, the Grace Estimation Method: developed by architect Sam Grace over 35 years in construction across Australia, the UAE and Egypt.
